

March 2025

Access to everyone

Our club is run in the community room, within Darton Primary school. The school is all on one level, which means, EVERYONE can access the club, staff, children, parents and other professionals.

There are facilities for children with additional needs, to enable them to come and play.

Whilst in the club, children and their parents / carers are our main source of information, we will have discussed any areas of concern or issues raised by parents / carers and child before they actually start using our service. This is so the staff can ensure we have ALL of the correct facilities/ equipment so the child can enjoy all of the activities on offer.

The kitchen area can be used, if the staff supervise the children accordingly, as long as the children are responsible and sensible.

We try to put posters up within eye level for each child, we do find this difficult with lack of wall space, but we do try our best.

The room is light and airy, with lots of natural light.

We look at our planning to see if we need any specific equipment for any activity, if we do find we are struggling with something, we discuss these issues with parents, and Early start and family services.

We would have to hire any specific equipment due to lack of storage within the school.

All children are encouraged to ask for help if they cannot reach something, and if we find they are placed in a wrong area, we would look at alternative storage.

March 2025

The main thing we do find within club, is we discuss eventualities with parents and children in their induction before they access the club, so we have a general idea of what the children will need.

We have access to put our parent packs in different languages if necessary, just in case a parent / carer cannot read, or only understands English, but cannot read English. This is so we can ensure everyone knows what is happening within the setting.

All of the staff are encouraged to do any training that they think they would need, or the manager thinks they may need, to be able to support ALL children within the setting.

We get the school nurse to come in to train us on epi pens etc, as and when we need the training.
