

April 26

Accident, First Aid and Child Incident Policy and Procedure

Statutory Framework for the Early Years Foundation Stage

'Providers must ensure there is a first aid box accessible at all times with appropriate content for use with children. Providers must keep a written record of accidents or injuries and first aid treatment. Providers must inform parents and/or carers of any accident or injury sustained by the child on the same day, or as soon as reasonably practicable, of any first aid treatment given'

Purpose of the Policy:

The purpose of this policy is to set out the procedure to be followed in the event of an accident or incident, to ensure children accessing the out of school club have a positive and safe experience.

We aim to:

- Provide all staff with first aid training so there is always at least 1 staff member available on site at all times to meet Health and Safety requirements.
- Minimise the risk of accidents and incidents occurring.
- Ensure all accidents and incidents are dealt with quickly and are discussed with parents/carers as soon as possible (the severity will determine the timescale for contact).
- Monitor and track the occurrence of accidents/incidents to highlight any trends which will inform the improvement of the environment, risk assessments and the supervision of children.

What you (parents / carers) should do:

- On initial registration forms for the children, sign to give permission for emergency medical treatment including the administration of first aid by a member of staff.
- Update the emergency contact details in your Parent/Carer Contract regularly in case you need to be contacted in an emergency
- Sign Accident/ Incident forms on collection of your child (where this is not applicable – EG covid restrictions or forgotten to get a signature staff will Sign

April 26

the form once they have text parents giving details and getting a reply back saying they have received the message)

- If your child has an accident which results in an injury whilst not in our care, you must inform a member of staff the next time your child attends the club and they will complete an existing injury document.
- If your child has an accident at the club and your child is later taken to hospital, parents are asked to inform the club as soon as possible to ensure any notification to Ofsted is undertaken and health and safety procedures are followed.

What we will do:

- Ensure all of our staff have first aid training so anyone can deal with any accidents/ incidents within the club.
- If your child has a minor injury to the head (neck or above) that does not need hospital treatment we will monitor them throughout the session, let parents know via text message or phone call, and will give the person collecting the child a bump note
- Identify hazards and regularly review and update risk assessments to minimise the likelihood of accidents and incidents occurring.
- Inform parent/ carers on collection of their child, of any accidents/ incidents that have occurred during their session and gain their signatures on the forms.
- If the child is collected by anyone other than the parent/carer the adult collecting the child will be notified of the accident/incident upon collection and asked to sign it to say they have been told about it. In addition, the parent/carer will be telephoned as soon as possible but within 24 hours to verbally notify them of the accident. A parent/carer signature will be required on the accident/incident form at the earliest opportunity. (or signed by staff after receiving confirmation from parents that they know about the issue)
- Accompany any child that is taken to hospital in an ambulance, and stay with the child until the parent/ carer arrives. The child's registration form will be taken with the child, to provide necessary information to the hospital.
- Provide clearly labelled first aid boxes in accessible places that comply with Health and Safety Regulations and make sure all staff are aware of their locations. Ensure the boxes are regularly checked and replenished with a record kept of the checks.

April 26

- Make sure staff are aware of what to do in case of an emergency whilst on a trip/outing and ensure at least one member of staff is paediatric first aid trained and a first aid kit is available.
- If a child (who is not accessing the out of school club), parent/carer or visitor is injured on the clubs site the accident/incident will be recorded on the **schools first aid report book** If the accident/incident is a head injury should be given to the parent/carer or visitor, the staff member dealing with the accident/incident should draw attention to the 'Head Injuries What to look out for' section and encourage them to fill in the details of the accident/incident

Forms to complete in full

Any injury, sign of illness or incident that is reported will be recorded as follows. An accident form, after signatures have been sought, will be kept in the child's or staff members file an incident form, will be kept in the incident section of the accident and incident file.

The following information must be included:

- Name and age of child / person
- Time, date and place of any incident or accident
- A brief but full description of the circumstances
- Description of any first aid administered
- Staff involved and what they did
- Details of who/which organisations were also informed.
- Signature of staff member who administered first aid
- Signature of parent or child
- Signature of person making the report
- An outline of a body, front and back to show where injury is

The accident or incident will be recorded in the following way:

- Only **one** accident or incident shall be recorded per page.
- These files will be kept in the child's or staffs personal files which are kept in a secure place
- For minor and major accidents - records will be kept until the child's 21st birthday.
- Any incidents that uncover a child protection issue shall be kept until the child is 25 years of age
- Any accidents that evolve to become an *industrial disease* shall be kept for 40 years after the child or adult leaves the provision
- Any records of a fatal accident shall be kept for 21 years from the day of completion

April 26

In the Event of a serious accident, incident or illness

On registering a child within our setting, parents/carers will complete and sign the Emergency Medical Treatment sections on the registration form enabling the owner or any member of staff so empowered, to give permission for emergency medical treatment for their child in the event of a serious accident, incident or illness occurring at the club.

If this occurs, the following procedures will apply:

- The designated First Aider will be notified - they will assess the situation and decide whether the child needs to go straight to hospital or whether they can safely wait for their parent/carer to arrive.
- Staff should ensure the casualty is breathing and conscious and remain calm and talk to the casualty in a positive manner. Ensuring other children are taken away from the area immediately.
- Unless the casualty is in further danger, e.g. from falling objects, they must not be moved
- If the casualty needs to go straight to hospital, an ambulance will be called. If the casualty is a child, the parent/carer will also be contacted, alongside the emergency services. If a parent / carer can't get to the setting before the ambulance leaves, A member of staff will accompany the child to the hospital and will consent to medical treatment being given, so long as the Emergency Medical Treatment section on the registration Form has been completed and sign.
- If the casualty does not need to go straight to hospital but their condition means they should go home, the parent/carer/other named contact will be contacted to collect the casualty. In the meantime, they will be made as comfortable as possible and be kept under close supervision
- All such accidents or incidents will be recorded in detail and logged on an Incident or Accident Record form. Parents/carers will be asked to sign in the relevant section of the form to acknowledge the incident or accident and any action taken by the Club and its staff. Parents will always be asked if they want a copy of the accident form when they are signing it.
- Parents/carers will be made fully aware of the details of any incidents involving their child's health and safety, and any actions taken by the Club and its staff.

The owner and staff team should consider whether the accident or incident highlights weaknesses in the Club's policies or procedures, and act accordingly, making suitable adjustments where necessary.

April 26

Procedure

The clubs owner is expected to nominate the most appropriate person within the staff team to: -

- Pre-populate the **Accident/Incident Forms** with a unique reference number
- Ensure there is a supply of Accident/Incident Forms available within club, with unique reference numbers, which follow on from the last one used.
- If the accident/incident involves a minor injury to the head (neck or above) staff will complete a **bump note** and issue to the person collecting the child on the day.
- The member of staff will monitor the child whilst in their care. If the accident/incident is serious (cannot be dealt with by the first aider) an ambulance will be called and parents/carers will be contacted. A member of staff will accompany the child to hospital in the absence of the parent/carer, taking the children's registration form with them, which provides medical details. In the absence of the parent/carer at hospital, staff are not permitted to sign medical consent forms on behalf of a child.
- The club will be required to notify Ofsted (Contact number: 0300 1234666) of any serious accident, illness or injury to or death of any child **Serious Accidents, Injuries and Deaths** that require notification to Ofsted and Local Child Protection Agencies) whilst in their care and of any action taken in respect of it. Notification will be made as soon as is reasonably practicable, by the Ofsted Registered Person but in any event within 2 days of the incident occurring. **It is an offence not to do so.** The Designated Safeguarding Lead will also notify the Local Safeguarding Children's Unit and must act on any advice given.
- When dealing with an incident which results in one child injuring another child e.g. one child bites another child the incident should be recorded on an **Accident/Incident Form** as an accident for the injured child and as an incident for the child who caused the injury.
- If the incident relates to the environmental, security, fire or a vehicle, Incident Policy will be followed.

April 26

Completing an Accident/Incident Form

- The member of staff who witnesses an accident, or deals with an accident/incident where there are no witnesses, will obtain a blank **Accident/Incident Form** which includes a unique reference number and complete

Management Sign Off

- It is responsibility of the owner / Manager to check that the Accident/Incident Forms have been completed correctly. They will then sign, date and record the time of checking, any issues raised from these checks will be discussed in the next monthly staff meeting, or before if the management deems it necessary to do so.
- Where entries are incomplete, the owner / manager will speak to the person who completed it, and ensure they fulfil the completion of the form.

Storage of Accident/Incident Information

The Designated Safeguarding Lead is responsible for the safe storage of the Accident/Incident Forms.

Monitoring of Accident/Incident Forms

_The owner must ensure a monthly review of: -

- Accident forms central sheet is complete.
- Trends may raise concerns relating to a child's development, hazards in the environment or supervision which would require changes to; risk assessments, care plans, the environment or staff supervision. Upon trends being identified the review must agree how trends will be addressed and who will be responsible for the actions, which should be clearly recorded in notes of meetings.

April 26

I the undersigned, am signing to say that I have reviewed this policy with the team, and will adhere to the policy at all times.
